Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I am a prepaid wireless user and so is my grandmother who is only able to keep the prepaid service because of it's low cost. We specifically carry our phones for emergency purposes. Although an increase of 1.00 may not seem significant to you it is to those of us who are barely making it in society today. My plea to you today is please reconsider this action. With the way the economy is today our society can not afford another increase on any bill.

Thank you for your reconsideration on this matter.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
